<i>Preface</i>	iv

CHAPTER 0 FUNCTIONS.....1

Lessons	0.1	Definition and Notation of Function	2
		Section 0.1 Exercises	6
	0.2	Domain and Range of a Function.....	10
		Section 0.2 Exercises	20
	0.3	Types of Functions and Their Graphs	23
		Section 0.3 Exercises	34
	0.4	Classifications of Functions.....	36
		Section 0.4 Exercises	44
	0.5	Operations on Functions	47
		Section 0.5 Exercises	51

0.6	Functions as Mathematical Models	55
	Section 0.6 Exercises	60
	Chapter 0 Test	62
CHAPTER 1	LIMITS AND CONTINUITY	68
Lessons	1.1 Limit of a Function and Limit Theorems	69
	Section 1.1 Exercises	80
	1.2 Limits of Transcendental Functions	84
	Section 1.2 Exercises	90
	1.3 Right-Hand Limit and Left-Hand Limit	92
	Section 1.3 Exercises	98
	1.4 Infinite Limits and Limits at Infinity	103
	Section 1.4 Exercises	119
	1.5 Continuity of a Function	122
	Section 1.5 Exercises	136
	1.6 Continuity of the Trigonometric Functions	139
	Section 1.6 Exercises	147
	Chapter 1 Test	149
CHAPTER 2	DERIVATIVES	157
Lessons	2.1 Definition of Derivative	158
	Section 2.1 Exercises	164
	2.2 Differentiation Rules	168
	Section 2.2 Exercises	178
	2.3 Derivatives of Trigonometric Functions	181
	Section 2.3 Exercises	189
	2.4 Derivatives of Exponential and Logarithmic Functions	192
	Section 2.4 Exercises	196
	2.5 Higher-Order Derivatives	199
	Section 2.5 Exercises	203

2.6	Behavior of Functions	207
	Section 2.6 Exercises	225
2.7	Applications Involving Global Maximum and Minimum Values.....	232
	Section 2.7 Exercises	240
2.8	Implicit Differentiation	242
	Section 2.8 Exercises	247
2.9	Problems Involving Related Rates	249
	Section 2.9 Exercises	253
	Chapter 2 Test	255
CHAPTER 3	INTEGRALS	262
Lessons	3.1 Definition of Indefinite Integral	263
	Section 3.1 Exercises	265
	3.2 Rules for Integration	267
	Section 3.2 Exercises	272
	3.3 Some Techniques of Integration	274
	Section 3.3 Exercises	281
	3.4 Definite Integral and the Second Fundamental Theorem of Calculus	284
	Section 3.4 Exercises	292
	3.5 Applications of Definite and Indefinite Integrals	295
	Section 3.5 Exercises	309
	Chapter 3 Test	311
	Rules for Differentiation	317
	Rules for Integration	318
	References	320
