

# Contents

<b>Chapter 1: The Cell</b>	<b>1</b>
❖ Plasma Membrane 1	
❖ Prokaryotic and Eukaryotic Cells 4	
❖ Transport Across Membrane 5	
❖ Cell Fractionation 8	
<b>Chapter 2: Enzymes</b>	<b>13</b>
❖ Chemical Nature of Enzymes 13	
❖ Energy of Activation of Catalyzed and Uncatalyzed Reactions 14	
❖ Mechanism of Enzyme Catalysis 16	
❖ Enzyme Inhibition 20	
❖ Isoenzymes 23	
<b>Chapter 3: Chemistry of Carbohydrates</b>	<b>33</b>
❖ Classification 33	
❖ Isomerism in Carbohydrates 35	
<b>Chapter 4: Metabolism of Carbohydrates</b>	<b>43</b>
❖ Digestion and Absorption of Carbohydrates 43	
❖ Metabolism of Carbohydrates 46	
❖ Glycolysis 47	
<b>Chapter 5: Chemistry of Amino Acids and Proteins</b>	<b>90</b>
❖ Definition of an $\alpha$ -Amino Acid 90	
❖ Classification of Amino Acids 93	
❖ Chromatography 104	
<b>Chapter 6: Metabolism of Amino Acids</b>	<b>114</b>
❖ Digestion and Absorption of Proteins 114	
❖ Catabolism of Amino Acids 115	
❖ Urea Cycle (Krebs-Henseleit Cycle) 117	
❖ Metabolism of Important Amino Acids 118	
<b>Chapter 7: Chemistry of Lipids</b>	<b>133</b>
❖ Definition 133	
❖ Functions of Lipids 133	
❖ Classification of Lipids 133	
<b>Chapter 8: Metabolism of Lipids</b>	<b>148</b>
❖ Digestion and Absorption of Lipids 148	
❖ Oxidation of Fatty Acids 151	
❖ Alcohol Metabolism 163	
❖ Risk Factors for Cardiovascular Disease 171	

<b>Chapter 16: Specialized Proteins</b>	<b>268</b>
❖ Collagen	268
❖ Elastin	269
❖ Keratin	270
❖ Actin	270
❖ Myosin	270
❖ Lens Protein	271
<b>Chapter 17: Vitamins</b>	<b>273</b>
❖ Fat-soluble Vitamins	273
❖ Water-soluble Vitamins	279
❖ B-complex Vitamins	280
<b>Chapter 18: Minerals</b>	<b>294</b>
❖ Calcium ( $\text{Ca}^{2+}$ )	294
❖ Magnesium ( $\text{Mg}^{2+}$ )	298
❖ Sodium ( $\text{Na}^+$ )	298
❖ Osmolality	299
❖ Atrial Natriuretic Peptide	300
❖ Potassium ( $\text{K}^+$ )	302
❖ Chloride ( $\text{Cl}^-$ )	306
❖ Iron ( $\text{Fe}^{2+}$ )	306
❖ Copper ( $\text{Cu}^{2+}$ )	309
❖ Zinc ( $\text{Zn}^{2+}$ )	310
❖ Manganese ( $\text{Mn}^{2+}$ )	310
❖ Molybdenum ( $\text{Mo}^{6+}$ )	311
❖ Cobalt ( $\text{Co}^{2+}$ )	311
❖ Selenium ( $\text{Se}^{2+}$ )	311
❖ Fluoride ( $\text{F}^-$ )	311
❖ Chromium ( $\text{Cr}^{3+}$ )	312
❖ Iodine ( $\text{I}^-$ )	312
<b>Chapter 19: Water and Electrolyte Balance</b>	<b>317</b>
❖ Water Balance	317
❖ Electrolyte Balance	321
<b>Chapter 20: Nutrition and Dietetics</b>	<b>329</b>
❖ Dietary Fiber	332
❖ Measurement of Metabolic Rate or Energy	334
❖ Nutrition-related Diseases	337
❖ Cookery Rules and Preservation of Nutrients	345
❖ Balanced Diet	348
❖ Supplementary/Complementary Foods	358
❖ RDA	358
❖ Types of Infant Feeding	359
❖ Diet for Obesity	360
❖ Diet for Liver Disease	360

<b>Chapter 9: Integration of Metabolism and Homeostasis</b>	<b>181</b>
❖ Pathways of Metabolism 182	
❖ Hormonal Regulation of Metabolism During Well-fed State 184	
❖ Hormonal Regulation of Metabolism During Fasting/Starvation 185	
<b>Chapter 10: Hemoglobin Metabolism</b>	<b>194</b>
❖ Structure of Hemoglobin 194	
❖ Compare Myoglobin and Hemoglobin 195	
❖ Thalassemia 198	
❖ Sickle Cell Hemoglobin 199	
❖ Detection of Abnormal Hemoglobin 200	
❖ Jaundice 205	
<b>Chapter 11: Acid–Base Balance</b>	<b>209</b>
❖ Buffers 209	
❖ Acid–Base Disorders 213	
❖ Mixed Acid–Base Disorders 216	
<b>Chapter 12: Biological Oxidation</b>	<b>222</b>
❖ Principles of Reduction–Oxidation Reactions 222	
❖ Structural Organization of Respiratory Chain and Electron Transport Structure of the Mitochondria 223	
❖ Organization of the Chain 223	
<b>Chapter 13: Hormones</b>	<b>229</b>
❖ Pituitary Hormones 231	
❖ Thyroid Hormones 233	
❖ Hyperthyroid Diseases 234	
❖ Parathyroid Hormones 234	
❖ Adrenal Gland 235	
❖ Glucocorticoids 235	
❖ Pancreas 240	
❖ Female Sex Hormones 240	
❖ Ovary 247	
❖ Testes 242	
<b>Chapter 14: Immunochemistry</b>	<b>249</b>
❖ Humoral and Cellular Immunity 249	
❖ Vaccine Development 250	
❖ Immunoglobulin 250	
❖ Mechanism of Antibody Production 252	
❖ Human Leukocyte Antigen 252	
<b>Chapter 15: Free Radicals and Antioxidants</b>	<b>261</b>
❖ Reactive Oxygen Species 262	
❖ Antioxidants 263	
❖ Oxidative Stress in Disease 266	

❖ Diet for Underweight	360
❖ Diet for Renal Disease	361
❖ Diet for Pre- and Postoperative Period	362
<b>Chapter 21: Organ Function Tests</b>	<b>364</b>
❖ Liver Function Tests	364
❖ Renal Function Tests	368
❖ Thyroid Function Tests	371
<b>Chapter 22: Laboratory Values</b>	<b>386</b>
❖ Blood	386
❖ Urine	389
