

TABLE OF CONTENTS

CHAPTER 1 (LIMIT OF A FUNCTION)	1
1.1 Concept of a Limit	2
1.2 Theorems on Limits	10
1.3 Limits of some Transcendental Function	19
1.4 Infinite Limits of some Transcendental Function	
1.5 Continuity and Its Consequence	42
CHAPTER 2 (DIFFERENTIATION)	53
2.1 The Derivative	54
2.2 Rules on Differentiation	66
2.3 Techniques on Differentiation	76
2.4 Application of Derivative	87
CHAPTER 3 (INTEGRATION)	110
3.1 Antiderivative	110
3.2 Indefinite Integral	113
3.3 Chain Rule for Integration	121
3.4 Integration of Trigonometric Functions	125
3.5 Integration Yields to Inverse Trigonometric Functions	129
3.6 Integration of Exponential and Logarithmic Functions	133
3.7 Integration of Inverse Trigonometric Functions	139
3.8 Summation Notation	141
3.9 Riemann Sums	146
3.10 Definite Integral	153
3.11 Area Under Curve	163
CHAPTER 4 (SEPARABLE DIFFERENTIAL EQUATION)	171
4.1 Separable Differential Equation	172
4.2 Exponential Growth and Decay Model	177
4.3 Bounded Growth and Decay Model	184
4.4 Logistic Growth Model	190
