Preface	v
Inquiries, Investigations, and Immersion in Various Fields	1
Unit I: From Brainstorming to Data Gathering	3
LESSON 1 Reviewing the Research Writing Process.....	4
• Choose a Research Topic.....	6
• Prepare a Proposal.....	6
• Write the Background of the Study	6
• Review Related Literature and Studies	7
• Design Your Research Methodology	7
• Present Your Data Analysis and Interpretation	8
• Write Your Conclusions and Recommendations	8
LESSON 2 Brainstorming for the Research Topic	17
• Brainstorming for the Research Topic.....	20
• Crafting the Title from the Chosen Topic	22
• Preparing the Research Plan.....	23
• Conceptualizing the Research Plan	23
• The Researcher's Plight for Her Research Topic.....	24
LESSON 3 Identifying the Problem and Asking the Question.....	29
• What am I supposed to write in the introduction?	35
• How will I formulate a feasible objective or research question?	35
• How do I write my theoretical framework or construct my conceptual framework?.....	36
• What will I include in the Scope and Delimitation section?	36
• Who are to benefit from my research?.....	36
• How will I define the important terms in the study?	37

LESSON 4	Reading on Related Studies	43
	• What am I going to search and review?	54
	• Where will I get these materials?	55
	• How will I organize my review?	56
LESSON 5	Understanding Ways to Collect Data	65
	• Research Design	69
	• Population and Sampling Method	70
	• Research Methods and Instruments Used	70
	• Data Collection Procedure	78
Unit Assessment: A College Preparation Test		87
Professional Career Simulation: Defending a Research Proposal		89
Inquiries, Investigations, and Immersion in Various Fields		91
Unit II: From Data Gathering to Research Sharing		93
LESSON 6	Finding the Answers to the Research Questions	94
	• Data Presentation	120
	• Data Analysis	121
	• Interpretation of Data	122
LESSON 7	Reporting Findings, Drawing Conclusions, and Making Recommendations	129
	• Summary of Findings	135
	• Drawing Conclusions	135
	• Making Recommendations	136
	• List of References	136
LESSON 8	Sharing Your Research	145
	• Documents to Prepare before Your Presentation	146
	• Things to Consider in Designing Your Presentation	147
	• Things to Remember in Presenting Your Research	147
	• Final Written Research Report for Submission	148
	• Sharing Your Output Beyond	148
Unit Assessment: A College Preparation Test		155
Professional Career Simulation: Defending a Research Paper		157
Bibliography		160
