

Contents

Preface	vii
---------------	-----

FIRST QUARTER: LIVING THINGS AND THEIR ENVIRONMENT

Unit I

Circulatory and Respiratory Systems Working with Other Organ Systems

Lesson 1 Organs of the Cardiovascular System	5
Lesson 2 The Different Blood Groups and the Blood Clotting Process	8
Lesson 3 The Cardiac Cycle, Heart Sounds, and Blood Pressure	14
Lesson 4 The Different Organs of Respiration and How They Work with the Circulatory System	18

Unit II

Heredity: Inheritance and Variation of Traits

Lesson 1 The Structure of the Chromosome	32
Lesson 2 Non-Mendelian Patterns of Inheritance	37

Unit III

Biodiversity and Evolution

Lesson 1 Types of Biodiversity	55
Lesson 2 Adaptations as Key Factors for Species Survival	61

Unit IV
Flow of Energy and Life Processes in Ecosystems

Lesson 1 Photosynthesis	74
Lesson 2 Cellular Respiration	80

SECOND QUARTER: MATTER

Unit V
Electronic Structure of Matter

Lesson 1 Bohr's Atomic Model	95
Lesson 2 The Quantum Mechanical Model of an Atom	99

Unit VI
Chemical Bonding

Lesson 1 Ionic Bond.....	114
Lesson 2 Covalent Bond	124
Lesson 3 Metallic Bonds.....	131

Unit VII
The Variety of Carbon Compounds

Lesson 1 The Carbon Atom.....	143
Lesson 2 Hydrocarbons	147
Lesson 3 Functional Groups	159

Unit VIII
Mole Concept

Lesson 1 Mole and Mass Relationship	176
Lesson 2 Percentage-by-Mass Composition and Chemical Formula of a Compound.....	184

THIRD QUARTER: EARTH AND SPACE

Unit IX
Volcanoes

Lesson 1 Introduction to Volcanoes and Their Types	202
Lesson 2 Volcanic Eruption.....	212
Lesson 3 Energy from Volcanoes.....	220

Unit X
Climate

Lesson 1 Different Factors Affecting Climate.....	236
Lesson 2 Global Climate Change Phenomenon.....	243

Unit XI
Stars and Constellations

Lesson 1 Characteristics of Stars	261
Lesson 2 Arrangement of Stars in a Group.....	268
Lesson 3 Changing Position of Constellations	273

FOURTH QUARTER: FORCE, MOTION, AND ENERGY

Unit XII	
Mechanics of Motion	
<hr/>	
Lesson 1	Projectile Motion: A Two-Dimensional Motion 290
Lesson 2	Impulse and Momentum..... 297
Unit XIII	
Work, Power, and Energy	
<hr/>	
Lesson 1	Energy Transformation 318
Lesson 2	Conservation of Energy 324
Unit XIV	
Thermodynamics	
<hr/>	
Lesson 1	Heat, Work, and the Principle of Energy Conservation 338
Lesson 2	Heat Engines and the Second Law of Thermodynamics..... 345
Unit XV	
Electricity and Magnetism	
<hr/>	
Lesson 1	Electrical Energy Generation, Transmission, and Distribution..... 367
Glossary 383
References 393
Index 406
