Contents

Preface xvi

PART I

Introduction 1

Chapter 1

The Investment Environment 1

- 1.1 Real Assets versus Financial Assets 2
- 1.2 Financial Assets 3
- 1.3 Financial Markets and the Economy 5
 - The Informational Role of Financial Markets / Consumption Timing / Allocation of Risk / Separation of Ownership and Management / Corporate Governance and Corporate Ethics*
- 1.4 The Investment Process 10
- 1.5 Markets Are Competitive 11
 - The Risk–Return Trade-Off / Efficient Markets*
- 1.6 The Players 13
 - Financial Intermediaries / Investment Bankers / Venture Capital and Private Equity / Finance, Financial Innovation, and Decentralized Finance*
 - Robo Advice / Blockchains / Cryptocurrencies / Digital Tokens / Digital Currency*
- 1.7 The Financial Crisis of 2008–2009 19
 - Antecedents of the Crisis / Changes in Housing Finance / Mortgage Derivatives / Credit Default Swaps / The Rise of Systemic Risk / The Shoe Drops / The Dodd–Frank Reform Act*
- 1.8 Outline of the Text 27
- End of Chapter Material 27–30

Chapter 2

Asset Classes and Financial Instruments 31

- 2.1 The Money Market 31
 - Treasury Bills / Certificates of Deposit / Commercial Paper / Bankers' Acceptances / Eurodollars / Repos and Reverses / Federal Funds / Brokers' Calls / LIBOR and Its Replacements / Yields on Money Market Instruments / Money Market Funds*
- 2.2 The Bond Market 37
 - Treasury Notes and Bonds / Inflation-Protected Treasury Bonds / Federal Agency Debt / International Bonds / Municipal Bonds / Corporate Bonds / Mortgage and Asset-Backed Securities*
- 2.3 Equity Securities 44
 - Common Stock as Ownership Shares / Characteristics of Common Stock / Stock Market Listings / Preferred Stock / Depositary Receipts*
- 2.4 Stock and Bond Market Indexes 47
 - Stock Market Indexes / Dow Jones Industrial Average / The Standard & Poor's 500 Index / Russell Indexes / Other U.S. Market-Value Indexes / Equally Weighted Indexes / Foreign and International Stock Market Indexes / Bond Market Indicators*
- 2.5 Derivative Markets 54
 - Options / Futures Contracts*
- End of Chapter Material 56–60

Chapter 3

How Securities Are Traded 61

- 3.1 How Firms Issue Securities 61
 - Privately Held Firms / Publicly Traded Companies / Shelf Registration / Initial Public Offerings / SPACs versus Traditional IPOs*

Contents

- 3.2 How Securities Are Traded 67
 - Types of Markets*
 - Direct Search Markets / Brokered Markets / Dealer Markets / Auction Markets*
 - Types of Orders*
 - Market Orders / Price-Contingent Orders*
 - Trading Mechanisms*
 - Dealer Markets / Electronic Communication Networks (ECNs) / Specialist/DMM Markets*
- 3.3 The Rise of Electronic Trading 72
- 3.4 U.S. Markets 74
 - NASDAQ / The New York Stock Exchange / ECNs*
- 3.5 New Trading Strategies 76
 - Algorithmic Trading / High-Frequency Trading / Dark Pools / Internalization / Bond Trading*
- 3.6 Globalization of Stock Markets 80
- 3.7 Trading Costs 81
- 3.8 Buying on Margin 82
- 3.9 Short Sales 85
- 3.10 Regulation of Securities Markets 89
 - Self-Regulation / The Sarbanes-Oxley Act / Insider Trading*

Chapter 4

Mutual Funds and Other Investment Companies 99

- 4.1 Investment Companies 99
- 4.2 Types of Investment Companies 100
 - Unit Investment Trusts / Managed Investment Companies / Exchange-Traded Funds / Other Investment Organizations*
 - Commingled Funds / Real Estate Investment Trusts (REITs) / Hedge Funds*
- 4.3 Mutual Funds 104
 - Investment Policies*
 - Money Market Funds / Equity Funds / Sector Funds / Bond Funds / International Funds / Balanced Funds / Asset Allocation and Flexible Funds / Index Funds*
 - How Funds Are Sold*
- 4.4 Costs of Investing in Mutual Funds 107
 - Fee Structure*
 - Operating Expenses / Front-End Load / Back-End Load / 12b-1 Charges*
 - Fees and Mutual Fund Returns*
- 4.5 Taxation of Mutual Fund Income 111

- 4.6 Exchange-Traded Funds 112
- 4.7 Mutual Fund Investment Performance: A First Look 115
- 4.8 Information on Mutual Funds 116
 - End of Chapter Material 119-124*

PART II

Portfolio Theory and Practice 125

Chapter 5

Risk, Return, and the Historical Record 125

- 5.1 Measuring Returns over Different Holding Periods 126
 - Annual Percentage Rates / Continuous Compounding*
- 5.2 Interest Rates and Inflation Rates 129
 - Real and Nominal Rates of Interest / The Equilibrium Real Rate of Interest / Interest Rates and Inflation / Taxes and the Real Rate of Interest / Treasury Bills and Inflation, 1926-2021*
- 5.3 Risk and Risk Premiums 133
 - Holding-Period Returns / Expected Return and Standard Deviation / Excess Returns and Risk Premiums / The Reward-to-Volatility (Sharpe) Ratio*
- 5.4 The Normal Distribution 137
- 5.5 Deviations from Normality and Tail Risk 140
 - Value at Risk / Expected Shortfall / Lower Partial Standard Deviation and the Sortino Ratio / Relative Frequency of Large, Negative 3-Sigma Returns*
- 5.6 Learning from Historical Returns 143
 - Time Series versus Scenario Analysis / Expected Returns and the Arithmetic Average / The Geometric (Time-Weighted) Average Return / Estimating Variance and Standard Deviation / Mean and Standard Deviation Estimates from Higher-Frequency Observations*
- 5.7 Historic Returns on Risky Portfolios 147
 - A Global View of the Historical Record*
- 5.8 Normality and Long-Term Investments 156
 - Short-Run versus Long-Run Risk / Forecasts for the Long Haul*

End of Chapter Material 160-166

Chapter 6

Capital Allocation to Risky Assets 167

- 6.1 Risk and Risk Aversion 168
 - Risk, Speculation, and Gambling / Risk Aversion and Utility Values / Estimating Risk Aversion*

Contents

6.2	Capital Allocation across Risky and Risk-Free Portfolios	173
6.3	The Risk-Free Asset	176
6.4	Portfolios of One Risky Asset and a Risk-Free Asset	176
6.5	Risk Tolerance and Asset Allocation	179
	<i>Non-normal Returns</i>	
6.6	Passive Strategies: The Capital Market Line	185
	End of Chapter Material	187–195
	Appendix A: Risk Aversion, Expected Utility, and the St. Petersburg Paradox	196

Chapter 7

Efficient Diversification 201

7.1	Diversification and Portfolio Risk	202
7.2	Portfolios of Two Risky Assets	203
7.3	Asset Allocation with Stocks, Bonds, and Bills	211
	<i>Asset Allocation with Two Risky Asset Classes</i>	
7.4	The Markowitz Portfolio Optimization Model	216
	<i>Security Selection / Capital Allocation and the Separation Property / The Power of Diversification / Asset Allocation and Security Selection</i>	
7.5	Risk Pooling, Risk Sharing, and Time Diversification	225
	<i>Risk Sharing versus Risk Pooling / Time Diversification</i>	
	End of Chapter Material	228–238
	Appendix A: A Spreadsheet Model for Efficient Diversification	238
	Appendix B: Review of Portfolio Statistics	243

Chapter 8

Index Models 251

8.1	A Single-Factor Security Market	252
	<i>The Input List of the Markowitz Model / Systematic versus Firm-Specific Risk</i>	
8.2	The Single-Index Model	254
	<i>The Regression Equation of the Single-Index Model / The Expected Return–Beta Relationship / Risk and Covariance in the Single-Index Model / The Set of Estimates Needed for the Single-Index Model / The Index Model and Diversification</i>	
8.3	Estimating the Single-Index Model	261
	<i>The Security Characteristic Line for U.S. Steel / The Explanatory Power of U.S. Steel's SCL / The Estimate of Alpha / The Estimate of Beta / Firm-Specific Risk / Typical Results from Index Model Regressions</i>	
8.4	The Industry Version of the Index Model	265
	<i>Predicting Betas</i>	

8.5	Portfolio Construction Using the Single-Index Model	268
-----	---	-----

Alpha and Security Analysis / The Index Portfolio as an Investment Asset / The Single-Index Model Input List / The Optimal Risky Portfolio in the Single-Index Model / The Information Ratio / Summary of Optimization Procedure / An Example / Correlation and Covariance Matrix

Risk Premium Forecasts / The Optimal Risky Portfolio / Is the Index Model Inferior to the Full-Covariance Model?

End of Chapter Material 277–282

PART III

Equilibrium in Capital Markets 283

Chapter 9

The Capital Asset Pricing Model 283

9.1	The Capital Asset Pricing Model	283
	<i>The Market Portfolio / The Passive Strategy Is Efficient / The Risk Premium of the Market Portfolio / Expected Returns on Individual Securities / The Security Market Line / The CAPM and the Single-Index Market</i>	
9.2	Assumptions and Extensions of the CAPM	294
	<i>Identical Input Lists / Risk-Free Borrowing and the Zero-Beta Model / Labor Income and Other Nontraded Assets / A Multiperiod Model and Hedge Portfolios / A Consumption-Based CAPM / Liquidity and the CAPM</i>	
9.3	Issues in Testing the CAPM	304
9.4	The CAPM and the Investment Industry	305
	End of Chapter Material	306–314

Chapter 10

Arbitrage Pricing Theory and Multifactor Models of Risk and Return 315

10.1	Multifactor Models: A Preview	316
	<i>Factor Models of Security Returns</i>	
10.2	Arbitrage Pricing Theory	318
	<i>Arbitrage, Risk Arbitrage, and Equilibrium / Diversification in a Single-Factor Security Market / Well-Diversified Portfolios / The Security Market Line of the APT / Individual Assets and the APT / Well-Diversified Portfolios in Practice</i>	
10.3	The APT and the CAPM	326
10.4	A Multifactor APT	326

10.5 The Fama-French (FF) Three-Factor Model	329
<i>Estimating and Implementing a Three-Factor SML / Extensions of the Three-Factor Model: A First Look / Smart Betas and Multifactor Models</i>	
End of Chapter Material	334–340

Chapter 11

The Efficient Market Hypothesis 341

11.1 Random Walks and Efficient Markets	342
<i>Competition as the Source of Efficiency / Versions of the Efficient Market Hypothesis</i>	
11.2 Implications of the EMH	346
<i>Technical Analysis / Fundamental Analysis / Active versus Passive Portfolio Management / The Role of Portfolio Management in an Efficient Market / Resource Allocation</i>	
11.3 Event Studies	351
11.4 Are Markets Efficient?	354
<i>The Issues</i>	
<i>The Magnitude Issue / The Selection Bias Issue / The Lucky Event Issue</i>	
<i>Weak-Form Tests: Patterns in Stock Returns</i>	
<i>Returns over Short Horizons / Returns over Long Horizons</i>	
<i>Predictors of Broad Market Returns / Semistrong Tests: Market Anomalies</i>	
<i>The Small-Firm Effect / The Neglected-Firm and Liquidity Effects / Book-to-Market Ratios / Post-Earnings-Announcement Price Drift / Other Predictors of Stock Returns</i>	
<i>Strong-Form Tests: Inside Information / Interpreting the Anomalies</i>	
<i>Risk Premiums or Inefficiencies? / Anomalies or Data Mining? / Anomalies over Time</i>	
<i>Bubbles and Market Efficiency</i>	
11.5 Mutual Fund and Analyst Performance	368
<i>Stock Market Analysts / Mutual Fund Managers / So, Are Markets Efficient?</i>	
End of Chapter Material	374–380

Chapter 12

Behavioral Finance and Technical Analysis 381

12.1 The Behavioral Critique	382
<i>Information Processing</i>	
<i>Limited Attention, Underreaction, and Overreaction / Overconfidence / Conservatism / Confirmation Bias / Extrapolation and Pattern Recognition</i>	
<i>Behavioral Biases</i>	
<i>Framing / Mental Accounting / Regret Avoidance / Affect and Feelings / Prospect Theory</i>	

<i>Limits to Arbitrage</i>	
<i>Fundamental Risk / Implementation Costs / Model Risk</i>	
<i>Limits to Arbitrage and the Law of One Price</i>	
<i>"Siamese Twin" Companies / Equity Carve-Outs / Closed-End Funds</i>	
<i>Bubbles and Behavioral Economics / Evaluating the Behavioral Critique</i>	
12.2 Technical Analysis and Behavioral Finance	394
<i>Trends and Corrections</i>	
<i>Momentum and Moving Averages / Relative Strength / Breadth</i>	
<i>Machine Learning and Technical Analysis / Sentiment Indicators</i>	
<i>• Trin Statistic / Confidence Index / Short Interest / Put/Call Ratio</i>	
<i>A Warning</i>	
End of Chapter Material	401–408

Chapter 13

Empirical Evidence on Security Returns 409

13.1 Two-Pass Tests of Asset Pricing	410
<i>Testing the Single-Factor SML</i>	
<i>• Setting Up the Sample Data / Estimating the SCL / Estimating the SML</i>	
<i>The Market Index / Measurement Error in Beta</i>	
13.2 Tests of the Multifactor Models	415
<i>Labor Income / Private (Nontraded) Business / Macroeconomic Risk Factors</i>	
13.3 Fama-French-Type Factor Models	419
<i>Size and B/M as Risk Factors / Behavioral Explanations / Momentum: A Fourth Factor / The Factor Zoo</i>	
13.4 Liquidity and Asset Pricing	427
13.5 The Equity Premium Puzzle	429
<i>Expected versus Realized Returns / Survivorship Bias / Extensions to the CAPM May Mitigate the Equity Premium Puzzle / Liquidity and the Equity Premium Puzzle / Behavioral Explanations of the Equity Premium Puzzle</i>	
End of Chapter Material	435–438

PART IV

Fixed-Income Securities 439

Chapter 14

Bond Prices and Yields 439

14.1 Bond Characteristics	440
<i>Treasury Bonds and Notes</i>	
<i>Accrued Interest and Quoted Bond Prices</i>	

Contents

Corporate Bonds

Call Provisions on Corporate Bonds / Convertible Bonds / Puttable Bonds / Floating-Rate Bonds

Preferred Stock / Other Domestic Issuers / International Bonds / Innovation in the Bond Market

Maturity / Inverse Floaters / Asset-Backed Bonds / Cauteris-Parie Bonds / Indexed Bonds

14.2 Bond Pricing 446

Bond Pricing between Coupon Dates

14.3 Bond Yields 451

Yield to Maturity / Yield to Call / Realized Compound Return versus Yield to Maturity

14.4 Bond Prices over Time 458

Yield to Maturity versus Holding-Period Return / Zero-Coupon Bonds and Treasury Strips / After-Tax Returns

14.5 Default Risk and Bond Pricing 463

Junk Bonds / Determinants of Bond Safety / Bond Indentures

Sinking Funds / Subordination of Further Debt / Dividend Restrictions / Collateral

Yield to Maturity and Default Risk / Credit Default Swaps / Credit Risk and Collateralized Debt Obligations

End of Chapter Material 474–480

Chapter 15

The Term Structure of Interest Rates 481

15.1 The Yield Curve 481

Bond Pricing

15.2 The Yield Curve and Future Interest Rates 484

The Yield Curve under Certainty / Holding-Period Returns / Forward Rates

15.3 Interest Rate Uncertainty and Forward Rates 489

15.4 Theories of the Term Structure 491

The Expectations Hypothesis / Liquidity Preference Theory / Market Segmentation

15.5 Interpreting the Term Structure 495

15.6 Forward Rates as Forward Contracts 498

End of Chapter Material 500–508

Chapter 16

Managing Bond Portfolios 509

16.1 Interest Rate Risk 510

Interest Rate Sensitivity / Duration / What Determines Duration?

Rule 1 for Duration / Rule 2 for Duration / Rule 3 for Duration / Rule 4 for Duration / Rule 5 for Duration

16.2 Convexity 519

Why Do Investors Like Convexity? / Duration and Convexity of Callable Bonds / Duration and Convexity of Mortgage-Backed Securities

16.3 Passive Bond Management 527

Bond-Index Funds / Immunization / Cash Flow Matching and Dedication / Other Problems with Conventional Immunization

16.4 Active Bond Management 536

Sources of Potential Profit / Horizon Analysis

End of Chapter Material 539–550

PART V

Security Analysis 551

Chapter 17

Macroeconomic and Industry Analysis 551

17.1 The Global Economy 551

17.2 The Domestic Macroeconomy 554

Key Economic Indicators

Gross Domestic Product / Employment / Inflation / Interest Rates / Budget Deficits / Sentiment

17.3 Demand and Supply Shocks 556

17.4 Federal Government Policy 557

Fiscal Policy / Monetary Policy / Supply-Side Policies

17.5 Business Cycles 560

The Business Cycle / Economic Indicators

17.6 Industry Analysis 564

Defining an Industry / Sensitivity to the Business Cycle / Sector Rotation / Industry Life Cycles

Start-Up Stage / Consolidation Stage / Maturity Stage / Relative Decline

Industry Structure and Performance

Threat of Entry / Rivalry between Existing Competitors / Pressure from Substitute Products / Bargaining Power of Buyers / Bargaining Power of Suppliers

End of Chapter Material 574–582

Chapter 18

Equity Valuation Models 583

18.1 Valuation by Comparables 583

Limitations of Book Value

18.2 Intrinsic Value versus Market Price 585

18.3 Dividend Discount Models 587

The Constant-Growth DDM / Convergence of Price to Intrinsic Value / Stock Prices and Investment

	<i>Opportunities / Life Cycles and Multistage Growth Models / Multistage Growth Models</i>	
18.4	The Price-Earnings Ratio 601	
	<i>The Price-Earnings Ratio and Growth Opportunities / P/E Ratios and Stock Risk / Pitfalls in P/E Analysis / The Cyclically Adjusted P/E Ratio / Combining P/E Analysis and the DDM / Other Comparative Valuation Ratios</i>	
	<i>Price-to-Book Ratio / Price-to-Cash-Flow Ratio / Price-to-Sales Ratio / Be Creative</i>	
18.5	Free Cash Flow Valuation Approaches 611	
	<i>Comparing the Valuation Models / The Problem with DCF Models</i>	
18.6	The Aggregate Stock Market 615	
	End of Chapter Material 617-628	
	Chapter 19	
	Financial Statement Analysis 629	
19.1	The Major Financial Statements 629	
	<i>The Income Statement / The Balance Sheet / The Statement of Cash Flows</i>	
19.2	Measuring Firm Performance 634	
19.3	Profitability Measures 635	
	<i>Return on Assets, ROA / Return on Capital, ROC / Return on Equity, ROE / Financial Leverage and ROE / Economic Value Added</i>	
19.4	Ratio Analysis 639	
	<i>Decomposition of ROE / Turnover and Other Asset Utilization Ratios / Liquidity Ratios / Market Price Ratios: Growth versus Value / Choosing a Benchmark</i>	
19.5	An Illustration of Financial Statement Analysis 650	
19.6	Comparability Problems 652	
	<i>Inventory Valuation / Depreciation / Inflation and Interest Expense / Fair Value Accounting / Quality of Earnings and Accounting Practices / International Accounting Conventions</i>	
19.7	Value Investing: The Graham Technique 658	
	End of Chapter Material 659-672	

PART VI

Options, Futures, and Other Derivatives 673

Chapter 20

Options Markets: Introduction 673

20.1	The Option Contract 673
	<i>Options Trading / American versus European Options / Adjustments in Option Contract Terms /</i>

	<i>The Options Clearing Corporation / Other Listed Options</i>
	<i>Index Options / Futures Options / Foreign Currency Options / Interest Rate Options</i>
20.2	Values of Options at Expiration 679
	<i>Call Options / Put Options / Option versus Stock Investments</i>
20.3	Option Strategies 683
	<i>Protective Put / Covered Calls / Straddle / Spreads / Collars</i>
20.4	The Put-Call Parity Relationship 691
20.5	Option-like Securities 694
	<i>Callable Bonds / Convertible Securities / Warrants / Collateralized Loans / Levered Equity and Risky Debt</i>
20.6	Financial Engineering 700
20.7	Exotic Options 702
	<i>Asian Options / Barrier Options / Lookback Options / Currency-Translated Options / Digital Options</i>
	End of Chapter Material 703-714

Chapter 21

Option Valuation 715

21.1	Option Valuation: Introduction 715
	<i>Intrinsic and Time Values / Determinants of Option Values</i>
21.2	Restrictions on Option Values 719
	<i>Restrictions on the Value of a Call Option / Early Exercise and Dividends / Early Exercise of American Puts</i>
21.3	Binomial Option Pricing 722
	<i>Two-State Option Pricing / Generalizing the Two-State Approach / Making the Valuation Model Practical</i>
21.4	Black-Scholes Option Valuation 730
	<i>The Black-Scholes Formula / Implied Volatility / Dividends and Call Option Valuation / Put Option Valuation / Dividends and Put Option Valuation</i>
21.5	Using the Black-Scholes Formula 738
	<i>Hedge Ratios and the Black-Scholes Formula / Portfolio Insurance / Option Pricing and the Financial Crisis / Option Pricing and Portfolio Theory / Hedging Bets on Mispriiced Options</i>
21.6	Empirical Evidence on Option Pricing 750
	End of Chapter Material 751-762

Chapter 22

Futures Markets 763

- 22.1 The Futures Contract 763
The Basics of Futures Contracts / Existing Contracts
- 22.2 Trading Mechanics 769
The Clearinghouse and Open Interest / The Margin Account and Marking to Market / The Convergence Property / Cash versus Actual Delivery / Regulations / Taxation
- 22.3 Futures Markets Strategies 773
Hedging and Speculation / Basis Risk and Hedging
- 22.4 Futures Prices 777
The Spot-Futures Parity Theorem / Spreads / Forward versus Futures Pricing
- 22.5 Futures Prices versus Expected Spot Prices 784
Expectations Hypothesis / Normal Backwardation / Contango / Modern Portfolio Theory
- End of Chapter Material 786–790

Chapter 23

Futures, Swaps, and Risk Management 791

- 23.1 Foreign Exchange Futures 791
The Markets / Interest Rate Parity / Direct versus Indirect Quotes / Using Futures to Manage Exchange Rate Risk
- 23.2 Stock-Index Futures 799
The Contracts / Creating Synthetic Stock Positions: An Asset Allocation Tool / Index Arbitrage / Using Index Futures to Hedge Market Risk
- 23.3 Interest Rate Futures 804
Hedging Interest Rate Risk
- 23.4 Swaps 806
Swaps and Balance Sheet Restructuring / The Swap Dealer / Other Interest Rate Contracts / Swap Pricing / Credit Risk in the Swap Market / Credit Default Swaps
- 23.5 Commodity Futures Pricing 813
Pricing with Storage Costs / Discounted Cash Flow Analysis for Commodity Futures
- End of Chapter Material 817–826

PART VII

Applied Portfolio Management 827

Chapter 24

Portfolio Performance Evaluation 827

- 24.1 The Conventional Theory of Performance Evaluation 827
Average Rates of Return / Time-Weighted Returns versus Dollar-Weighted Returns / Adjusting Returns for Risk /

Risk-Adjusted Performance Measures / The Sharpe Ratio for Overall Portfolios

The M² Measure and the Sharpe Ratio

The Treynor Ratio / The Information Ratio / The Role of Alpha in Performance Measures / Implementing Performance Measurement: An Example / Realized Returns versus Expected Returns / Selection Bias and Portfolio Evaluation

24.2 Style Analysis 839

24.3 Performance Measurement with Changing Portfolio Composition 841

Performance Manipulation and the Morningstar Risk-Adjusted Rating

24.4 Market Timing 845

The Potential Value of Market Timing / Valuing Market Timing as a Call Option / The Value of Imperfect Forecasting

24.5 Performance Attribution Procedures 850

Asset Allocation Decisions / Sector and Security Selection Decisions / Summing Up Component Contributions

End of Chapter Material 855–866

Chapter 25

International Diversification 867

25.1 Global Markets for Equities 867

Developed Countries / Emerging Markets / Market Capitalization and GDP / Home-Country Bias

25.2 Exchange Rate Risk and International Diversification 871

Exchange Rate Risk / Investment Risk in International Markets / International Diversification / Are Benefits from International Diversification Preserved in Bear Markets?

25.3 Political Risk 882

25.4 International Investing and Performance Attribution 885

Constructing a Benchmark Portfolio of Foreign Assets / Performance Attribution

End of Chapter Material 889–894

Chapter 26

Alternative Assets 895

26.1 Alternative Assets 896

The Alternative Asset Universe

Hedge Funds / Private Equity / Real Assets / Structured Products

Alternative Assets versus Traditional Assets

Transparency / Investors / Investment Strategies / Liquidity / Investment Horizon / Fee Structure

Contents

	<i>Role of Alternative Assets in Diversified Portfolios / Growth of Alternative Assets</i>	
26.2	Hedge Funds 900	
	<i>Hedge Fund Strategies / Statistical Arbitrage / High-Frequency Strategies /</i>	
	<i>Electronic News Feeds / Cross-Market Arbitrage / Electronic Market Making / Electronic "Front Running" / Portable Alpha</i>	
26.3	Venture Capital and Angel Investors 905	
	<i>Angel Investors / Venture Capital / Venture Capital and Investment Stages / Fund Life Cycle / Private Equity Valuation / Venture Syndication / Venture Capital and Innovation</i>	
26.4	Leveraged Buyout Funds 913	
	<i>Leveraged Buyout Firm Structure / The Deal / Exits / Leveraged Buyouts and Innovation</i>	
26.5	Performance Measurement for Alternative Investment Funds 916	
	<i>Liquidity and Performance</i>	
	<i>Liquidity and Hedge Fund Performance / Liquidity and Private Equity</i>	
	<i>Survivorship Bias and Backfill Bias / Tail Events / Historical Hedge Fund Performance / Style Analysis / Historical Performance of Private Equity</i>	
	<i>Grandstanding / Industry Specialization</i>	
	<i>Efficient Frontier</i>	
26.6	Fee Structure in Alternative Investments 926	
	<i>Incentive Fees / Private Equity Chasing Waterfalls / Funds of Funds</i>	
	End of Chapter Material 928-934	

Chapter 27

The Theory of Active Portfolio Management 935

27.1	Optimal Portfolios and Alpha Values 935
	<i>Forecasts of Alpha Values and Extreme Portfolio Weights / Restriction of Tracking Risk</i>
27.2	The Treynor-Black Model and Forecast Precision 942
	<i>Adjusting Forecasts for the Precision of Alpha / Distribution of Alpha Values / Organizational Structure and Performance</i>
27.3	The Black-Litterman Model 946
	<i>Black-Litterman Asset Allocation Decision / Step 1: The Covariance Matrix from Historical Data / Step 2: Determination of a Baseline Forecast / Step 3: Integrating the Manager's Private Views / Step 4: Revised (Posterior) Expectations / Step 5: Portfolio Optimization</i>

27.4	Treynor-Black versus Black-Litterman: Complements, Not Substitutes 951
	<i>The BL Model as Icing on the TB Cake / Why Not Replace the Entire TB Cake with the BL Icing?</i>
27.5	The Value of Active Management 953
	<i>A Model for the Estimation of Potential Fees / Results from the Distribution of Actual Information Ratios / Results from Distribution of Actual Forecasts</i>
27.6	Concluding Remarks on Active Management 955
	End of Chapter Material 955-956
	Appendix A: Forecasts and Realizations of Alpha 956
	Appendix B: The General Black-Litterman Model 957

Chapter 28

Investment Policy and the Framework of the CFA Institute 959

28.1	The Investment Management Process 960
28.2	Investor Objectives 962
	<i>Individual Investors</i>
	<i>Personal Trusts / Mutual Funds / Pension Funds / Endowment Funds / Life Insurance Companies / Non-Life Insurance Companies / Banks</i>
28.3	Investor Constraints 966
	<i>Liquidity / Investment Horizon / Regulations / Tax Considerations / Unique Needs</i>
28.4	Policy Statements 969
	<i>Sample Policy Statements for Individual Investors</i>
28.5	Asset Allocation 973
	<i>Top-Down Asset Allocation for Institutional Investors / Monitoring and Revising the Portfolio</i>
28.6	Managing Portfolios of Individual Investors 975
	<i>Investment in Residence / Saving for Retirement and the Assumption of Risk / Retirement Planning Models / Target Date Funds / Tax Sheltering and Asset Allocation</i>
	<i>The Tax-Deferral Option / Tax-Protected Retirement Plans / Deferred Annuities / Variable and Universal Life Insurance</i>
28.7	Pension Funds 981
	<i>Defined Contribution Plans / Defined Benefit Plans / Pension Investment Strategies</i>
	<i>Investing in Equities</i>
	End of Chapter Material 984-994

REFERENCES TO CFA PROBLEMS 995
