

Contents

Preface	iii
Dedication	v

Chapter 1

Counting Rules and Basic Probability 1

Unit 1.1:	Counting Rules	2
Unit 1.2:	Sample Spaces and Probability	8
Unit 1.3:	The Addition Rules and Multiplication Rules for Probability	14
Unit 1.4:	Marginal and Conditional Probabilities	18
Unit 1.5:	Microsoft Excel Software Applications	21
	Unit Exercises	23
	Chapter 1 Review Problems	33

Chapter 2

Random Variables and Probability Distribution 35

Unit 2.1:	Random Variables and Discrete Probability Distribution	36
Unit 2.2:	Mean, Variance, Standard Deviation, and Mathematical Expectation	44
Unit 2.3:	Binomial Probability Distribution	48
Unit 2.4:	Poisson Probability Distribution	50
Unit 2.5:	Hypergeometric Probability Distribution	53
Unit 2.6:	Microsoft Excel Software Application	59
	Unit Exercises	68
	Chapter 2 Review Problems	74

Chapter 3

Normal Distribution 77

Unit 3.1:	Basic Concepts	78
Unit 3.2:	Properties of a Normal Distribution	79
Unit 3.3:	Standard Normal Distribution	79
Unit 3.4:	Applications of Standard Normal Distribution	83
Unit 3.5:	Microsoft Excel Software Applications	92
	Unit Exercises	100
	Chapter 3 Review Problems	104

Chapter 4

Sampling and Sampling Distribution 107

Unit 4.1:	Basic Concepts	108
Unit 4.2:	Sampling Techniques	109
Unit 4.3:	Sampling Distribution of the Sample Mean	112
Unit 4.4:	Central Limit Theorem	124
Unit 4.5:	Normal Approximation to the Binomial Distribution	128
	Unit Exercises	133
	Chapter 4 Review Problems	141

Chapter 5

Estimation of Parameters 145

- Unit 5.1: Basic Concepts 146
- Unit 5.2: Interval Estimate of Population Mean 146
- Unit 5.3: Interval Estimate of Sample Mean 153
- Unit 5.4: Interval Estimate of Population Proportions 155
- Unit 5.5: Microsoft Excel Software Applications 159
- Unit Exercises 173
- Chapter 5 Review Problems 178

Chapter 6

Hypothesis Testing 181

- Unit 6.1: Basic Concepts 182
- Unit 6.2: One Sample z Test 188
- Unit 6.3: One sample t Test 192
- Unit 6.4: z Test for Proportion 197
- Unit 6.5: Microsoft Excel Software Applications 201
- Unit 6.6: SPSS Software Applications 218
- Unit Exercises 221
- Chapter 6 Review Problems 229

Chapter 7

Correlation and Regression Analysis 231

- Unit 7.1: Basic Concepts 232
- Unit 7.2: Pearson Product-Moment Correlation 233
- Unit 7.3: Spearman Rank-Order Correlation 240
- Unit 7.4: Simple Linear Regression Analysis 243
- Unit 7.5: Microsoft Excel Software Applications 254
- Unit 7.6: SPSS Software Applications 264
- Unit Exercises 273
- Chapter 7 Review Problems 283

Statistical Tables 285
